Factory To Build Bulk Sugar Storage Bins

Jacks Again Win Provincial Crown

By winning the third straight game of their four game series in Edmonton Friday night last by a score of 52-44, the Raymond Union Jacks again capped the Alberta Senior Basketball championship for the third successive year.

Showing a big improvement in their shooting over their previous games, and with Dick C'Brien leading the scorers, the local quint battered the basket of the defenders with deadly aim and piled up a score that the hard-fighting Varsity crew were unable to stem.

Leaving the floor at the end of the first half with a ten point lead, they held eight points of this margin throughout the second half, when Edmonton turned all they had into an offensive effort to win this game and force the series into the fourth and final game.

On Saturday night in the exhibition game, the locals again won with a score of 57-34, to take four straight games. The players arrived home Sunday evening about 6:30 p.m., tired after a hard day's drive but happy in their victory over the Golden Bears and their winning the Alberta title again.

The lineup and score Friday night was as follows:

Varsity: — Donaldson, 4; G. Keel, 11; M. Keel, 16; Henderson, 6; Anderson, 2; Pullishay, 2; Febery, 2; Wood, 2; Richards, 2; Jackson, Total 44.

Raymond: — O'Brien, 17; Kirkham, 15; R. Fairbanks, 31; Nilsson, 5; Hagie, 2; J. Fairbanks, Total 52.

Earl Zemp of Raymond, and Mr. Sillars of Edmonton handled both games in their usual efficient manner.

Dances and Operetta Presented Here Wednesday Last

The Stake Tryouts in the Dance and Operetta, held at the Opera House, Wednesday evening, were well attended, and were the centre of considerable interest.

Stirling was the only ward in the Stake who had the Operetta prepared and these people will go to Cardston on Saturday night to compete with the Lethbridge and Alberta Stakes.

The Dance was demonstrated by Miss LaPriel Passey and Rulon Bingham of Magrath, Earl Zemp and Miss Necia King of Raymond, and Edward and Miss Chloe Peterson of Stirling. An original Tango Dance was demonstrated by Kenneth Stone and Miss Chloe Peterson, and this, with the other dance, will compete in Tri-Stake competition at Cardston next Saturday evening.

W. O. Robinson of Salt Lake City, will be present Saturday evening in Cardston to judge the Drama, Dances and Operettas and also to criticize and offer suggestions to the performers.

Priesthood Meeting Convenes

The regular Priesthood and Stake Board Meeting of the Taylor Stake convened Sunday with good attendance in all sections considering the condition of the roads. Pres. J. W. Evans was in charge of the general assembly, due to the illness of the Pres., O. H. Snow, and the presence of H. S. Allen in Utah.

Eight names were presented for ordination to the office of Elders, four from the Raymond Second and four from the Magrath Second Wards. They were unanimously by the vote of the people.

Elders James S. Anderson and Earl Scoville spoke on the recent missionary work in the east part of the Stake, and stated that they were successful in their efforts, and that the people were anxious to hear the Gospel message. It was stated that as far as possible these meetings would be continued, and speakers and musicians would be called from all over the Stake to fill appointments at them.

The M. I. A. tryouts were announced, with the Tri-Stake Final in Cardston on Saturday night of this week.

News Notes

17 carloads of baby beef left Lethbridge this week for the British market. With the stabilization of the Pound in effect, it is expected that it will make a difference to the benefit of the farmer of about \$3,000 on this shipment.

Farm products in Alberta for the year 1932 were valued at \$116,826,000, with beets the bright spot in the picture. In 1928, the peak year, the value was \$330,000,000.

Mrs. Owen Wall who was seriously ill for a few days in the St. Michael's Hospital recently, is doing nicely now, and she and the new baby returned home this week.

Raymond Second Ward Wins Out Drama Contest

In the Contest Drama work, held at the Opera House Monday evening, and judged by Mrs. Haines of the Extension Department of the University of Alberta, the Raymond Second Ward won first place over other entries, being especially good in coaching and stage setting. This play was coached by Miss Iris Jones.

In picking a Stake cast, the judge selected four players from the Stirling entry, two from wellington, and one from the Raymond Second. The attendance was rather slim at the performances, but those present enjoyed the offerings despite the fact that it kept them up until late in the night.

Work Will Start Soon at Estimated Cost Of \$50,000.00---Will be only Plant of Kind on North American Continent

Announcement was made Wednesday, by the Canadian Sugar Factories, that they have decided to proceed with the construction of additional storage space for sugar which is to be completed in time for the 1933 crop of beets and sugar production.

The increased production of Alberta Sugar for the last two seasons has resulted in very heavy shipments of sugar to be stored in the various consuming centres of Alberta and Saskatchewan. The expenses of such storage are quite considerable and the proposed new storage it primarily for the purpose of reducing the cost of placing sugar in the hands of the consumers. It is felt that, with the new excise tax on sugar, any savings in the Beet Sugar industry which can be made, will result in benefit to the consumers of beet sugar in the local territory. The new storage will be of a type unique in Canada and in fact there is only one other sugar plant in the world as far as known, which will use the same type of storage.

The installation will take the form of bulk storage similar to the construction of terminal elevator bins. There will be four of these immense concrete bins which are 30 feet in diameter and a total overall height of 125 feet, so that the structures will be higher than the present factory buildings. These bins will be insulated against frost and moisture with special lining, which will be odorless and sanitary.

During the next sugar making campaign it is expected to convey approximately one-third of the sugar manufactured by conveyors and elevators into these bulk storage bins without sacking the product, and then to withdraw this sugar and sack it as may be required for market consumption during the spring and summer season. Any savings effected by this operation will be shared with the beet growers under their beet crop contract, which provides that reductions in the cost of selling sugar become a credit which affects the final price paid for sugar beets.

It is estimated that the construction of the bins will involve the driving of five or six hundred fir piles and the use of over 2,000 yards of sand and gravel, over 2,000 barrels of cement with nearly 200,000 pounds of reinforcing steel, etc. The construction work is to be served by a new spur track approximately 600 feet long which will enable the operation to proceed in a most economical fashion. The estimated cost of the storage bins will be \$50,000.00.

The Factory officials wished it stated that no outside labor will be required for this construction, as they expect to place local men on the job who have been in the employ of the Company during the Factory season of operation.

This additional construction at the Factory will be a decided benefit to Raymond during the spring, as it will furnish employment to quite a number of men and help swell the payroll for the next several months.

News Notes

Misery loves company. They come and go together.

Who is this "tenor of America" life that becomes more virile of which a Chicago professor speaks?

A party of eight from here was in Coutis on Sunday holding meeting there following up the recent missionary work in that section.

Spencer and Lloyd Cannon of Cardston were Raymond visitors on Saturday on business and visiting their sister, Mrs. Lowell Court and family.

Alfred Wright, 53, of Black Diamond, Alberta was killed and Mrs. Wright and Mrs. Garrison, who were riding with him were injured, in a head on collision just this side of Calgary when Mr. Wright swung out to miss a standing truck, and hit into an approaching car. The truck was left without lights.

Taylor Stake Temple Day, Friday, April 14

News Notes

No woman is an old maid until she admits it.

Fifteen people were killed near Essen, Germany on Tuesday, including the crew and twelve passengers, when an engine in the plane exploded and set it on fire.

H. L. Seamans, Dominion Entomologist of Lethbridge, will speak at the Board of Trade Meeting next Monday evening on "Insect Pests and Their Control." An invitation is extended to all, especially farmers, to attend this meeting.

Sunday Night at First Ward

Let us hail a group of real public speakers in the making. Should any in the Raymond 1st or 2nd Wards feel weary at times of a hashed, rehearsed and mined to a point sermon not so pleasing from our overworked preachers, tell your bishop how you enjoyed the meeting, which was presented by the deacons of the Raymond First Ward on Sunday, March 26th.

Responding to the call of their organization, within a weeks notice a splendid program of speech and song was prepared and presented in a way highly commendable and were enjoyed by all who heard them.

They took charge of the meeting, conducting it as real veterans with Willis Taylor as chairman.

The names of the speakers and their subjects follow:

Prayer, Arthur Hutchinson. Purpose Back of Program, Willis Taylor.

"What is Priesthood?" Roland Weed.

"What It Means To Me To Be A Deacon" — David Wood

"Duties of a Deacon" — Barker Selman.

"Be Ye Clean" — Jack Groy.

"Sacrifice Brings Blessings" C. C. Snow.

"Poison About Cigarettes," Ross Mendenhall.

"A Good Prayer" — Harold Lee.

"How Wilfred Woodruff Found the gospel" — Winnifred Litchfield.

"THE LORD ALWAYS SUPPORTS THE PRIESTHOOD" — Winston Blackmore.

"Be Not Forgetful To Entertain Friends" — Leonard Rolison.

"Father Knows Best" — Francine Selman.

"Out of Captivity" — James Ross.

"Why Did the Lord Call Young Men?" — Nyal Earl.

"The Lord Will Do His Part If We Do" — Reid Fawns.

Closing Prayer was offered by Guy Wing.

Through the activities of the Stake Genealogical Committee, a special Taylor Stake Temple Day has been arranged for Friday, April 14th, at the Cardston Temple, when it is expected that six companies will go through.

The present outlined program is as follows:

7 a. m. and 1 p. m. the Magrath two wards.

9 a. m. and 3 p. m. Stirling and the Raymond 1st Ward.

11 a. m. and 5 p. m. Raymond Second and Wellington Wards.

There will be a meeting with each company when it assembles for the forenoon session, but no meeting will be held preceding the afternoon session, when the companies will go directly into the ordinance work of the session.

It will require 300 people from the Stake to make this Excursion and Special Day a success, and those in charge of arrangements are desirous that wherever possible, Stake members will co-operate and join in the caravan to make it a real success. Cut this piece out for reference so you will know when to be there.

If a license can be secured from the Government, the United Brewery Limited, a British Columbia concern will build a half million dollar brewery in Calgary, on an abandoned business site there, on which they have an option. A decision is expected before adjournment of the Provincial House.

DeMille Brings First Spectacle To the "Talkies"

"Sign of the Cross" Takes Place With Famous Epics, "Ten Commandments" and "King of Kings"

The first Cecil B. DeMille spectacle-drama since the advent of sound, "The Sign of the Cross," opens Monday at the Capitol Theatre.

He made the greatest spectacle of silent pictures, the memorable "Ten Commandments," and entered the Hollywood lists anew determined to surpass even that achievement. When Mr. DeMille looked at the "rushes" of the new picture, he seemed content.

Fredric March, as the heroic prefect of old Rome, sacrificing wealth, position, even life for love of a Christian martyr-maid, is said to have the most virile role of his career.

Elissa Landi, Claudette Colbert and Charles Laughton have other principal roles.

The story was adapted to the screen from the famous play by Wilson Barrett. Its principals are supported by an ensemble of 75,000 extra players, the greatest number used in any production since the days of the silent drama.

The Board of Trade Survey

The Town Survey, some put over by the Board of Trade, is a move which every property owner, or tenant of our town should appreciate. That there is a great deal of room for improvement in the appearance of our surroundings, and streets, needs no comment. If a survey of this kind will enable us to do a little this year, and a little more next year, working toward a definite and well defined plan, then we will be getting somewhere, and this is what the survey aims to do.

Had the early efforts of Raymond's pioneers been directed to a well planned programme of civic beautification and plantings been of approved and lasting varieties, the town, and especially the streets and shade trees of the town would still be good for many years of service. As it is, some of these have now reached the stage where they need replacing, and this will mean considerable waiting for new trees to get far enough advanced to take their place.

The Committees in the will survey the premises with a view to making every home in the Town a beauty spot and a delight to the eye. The full accomplishment of the program will take money, and considerable of it, but it is not the idea to try and put it all over in one year, or two, or three years. It will be a program that will occupy a number of years to realize, but it will be arranged so that every shrub, tree, hedge or flower planted, will have its place in the scheme, and after all a program of this kind is the least work and effort, also the least expense in the long run.

Gladious bulbs are being ordered, to be sold as cheap as possible to those who desire to make a start. Caragana seedlings are obtainable from the Government Farm at Oliver, and while no definite arrangement has been made in this respect, it is expected that thousands of these will be procured by the Board of Trade for distribution at actual cost to those who desire to plant hedges around their homes and surroundings. These steps are only a start. All kinds of trees, shrubs and anything that may be decided upon will be sought after

and obtained for those who want them, and everything that can be done to make the Survey the foundation of valuable and efficient work.

It is to be hoped that citizens will take the recommendation of the Committee in good part, that they will do all they can, and go as far as time and money will permit in carrying these suggestions out, and that before winter comes the members of the Committee will see some tangible results from the effects of their work.

FAT AND SKINNY

Getting thin or getting fat. How those two bugaboo do hang over the American people. Verily no blue law could cause more discomfort.

Mary adores chocolates, but she'll tell you mournfully that she can't eat them because she is getting too fat.

Dad doesn't really mind his big paunch, but so darned many people say, "You aren't so slim as you used to be, are you Jim," that in desperation he takes to gym, suffers the tortures of using long unused muscles, and lives on a slice of toast and water just to put the silencer on that "getting fat" speech.

And how the fat ones do enjoy the thin ones who the doctor orders to drink lots of milk, eat beefsteak and all the candy they want.

But suppose you are a thin one and hate milk? Still you will suffer the nauseating stuff just to you won't have to hear people say "My goodness, girl, you're nothing but a wraith."

Somehow or other, one can't help thinking that old Gibbon, who wrote "The Decline and Fall of the Roman Empire" is to be envied for his courage. The doctor told him, for so the story goes, that he'd die if he kept on getting fatter. But he said he'd be darned if he'd give up eating the way he wanted to, and so he died, glorying in his fatness, although he required a specially built chair big enough for two ordinary folk.

News Notes

Distance lends enhancement to a debt.

Women don't play ball because the payers are too far apart to talk.

A good crowd was present at the Capitol Theatre Friday night to see the double bill program and get the results of the Basketball game at Edmonton.

E. E. Reithman and family of Magrath are expecting to move to Raymond on April 1st. Mr. Reithman expects to better his painting and decorating business.

Beatty of the C.P.R.

As Montrealeers Know Him
Reprinted from Montreal Daily Herald

Ed. Beatty is a quarter-back who studied law, but by a twist of fate, became a railway president.

Though he couldn't make the first string on the Varsity gridiron squad he had no difficulty with the C.P.R. and has played regularly ever since. They say it was Shaughnessy coaching that turned the trick (Lord S. not Shag).

He is probably the shyest man in Canada.

The ladies admire him because he wears his hat over one eye and walks with a quarterback swagger. The fact that he is a bachelor and apparently intends to remain one provides a second element of "je ne sais quoi" to keep feminine hearts in a state of flutter.

Business men like him because he talks straight from the shoulder and has an uncanny talent for getting at the core of the most intricate problem.

The man in the street respects him because he preaches The Gospel Of True Canadianism.

Politicians fawn on him because he is the boss of the C. P. R.

The Prince of Wales is another citizen who thinks Beatty is "all right," and His Royal Highness is always ready to prove it by officiating at the launching of a new C. P. R. ship.

Ordinary people respect him highly, and are sorry his railway is a hard time.

As a youth he wanted to be a judge, but Fate intervened and sent him a job in the C. P. R.'s legal department. Young Beatty refused to regard this as his life-work, but ultimately had to decide in a hurry when the late Lord Shaughnessy sent for him and asked him to be a Vice-President.

Here is one version of what took place:

Beatty said "No!" "Tom" Shaughnessy fixed the young attorney with a stern eye and exclaimed, "My God, Beatty! Do you want to be a mere lawyer all your life?" Young Beatty smiled and took the job.

Some people think Mr. Beatty is hard to reach and tales are told of citizens who wait for weeks for the call to conference. Nevertheless he is the easiest man in the country to talk to, provided you can crash the outer office.

He is one of the few leading citizens who go in for Good Works in a Big Way without thought of publicity or praise. Not long ago the mother of an ex-Boys' Home youth who had lost his job in the States, was destitute and needed trainfare home in despair telephoned to E. W. The Chairman and President of the C.P.R. came to the phone in person, discussed the case with the harassed mother, told her not to worry and instructed the C. P. R. official nearest to the boy to ship him back to his home, paying the fare out of his own pocket. These are the things which have won him a reputation for kindness and humanity.

He was born at Thorold, which Ontario people will tell you is situated in the Garden of Canada. He attended several schools in Toronto, and ultimately scratched his way into, through and out of Toronto University and was called to the Ontario Bar. That was in 1901 and almost at once he went into the C.P.R.'s law department. He stayed there for thirteen years before becoming the company's General Counsel. In 1916 he was elected to the Board. In 1918 they made him President, when Lord Shaughnessy dropped one of his two portfolios. Six years later he added the title Chairman to his letterhead. Since then he has held both jobs and has had plenty of worries on his hands.

He thinks co-operative management will solve the railway problem. He does more travelling than many salesmen. To-day you will see him in Calgary. Next Tuesday he will be in Montreal. On Wednesday he will appear before the Railway Commission in the Capital. On Thursday you can talk with him by long distance to the Empress of Britain, outward bound. Wherever he goes he carries his work under his hat. When times were good it used to be written that he had the Biggest Industrial Job In The World. The job to-day is probably just as big but infinitely more arduous.

His continued good repute is largely due to the idea that has got about that he is honest, honorable and, taking him by and large, as representative a citizen of Canada as can be found between the two oceans. And there is plenty of evidence to support the charge.

MR. MERCHANT

If It's Worth Selling It's
Worth . . .

Advertising

Help Us Use This Space

Not a week passes that you are not being canvassed by representatives of nationally advertised products to stock and push them, and to give them good window and counter displays

Local Retailers Is It Fair ?

Their Representatives tell you of the large sums of money being spent in metropolitan daily newspapers and nationally-circulated magazines, to create and maintain consumer demand, and they try hard to persuade you that such "remote" advertising will surely create and sustain large local demand

It is admitted that it is advantageous to you and your customers for you to buy nationally advertised products, but such products will sell faster if they are locally advertised, in this newspaper, in addition to being advertised in non-local publications.

There is no good or sound reason why a national advertiser should not do local advertising in his paper. You will be told, when you say to the representative of firms canvassing you to stock and push his firm's product, "Oh, we could never afford to do local advertising." What he really means when he says such words, is that he doesn't expect large local sales. If he did, then he would see that these local sales can provide a sum of money adequately to maintain a local advertising campaign.

Why should you help a national advertiser to develop his business in the territory covered by the circulation of this newspaper without advertising co-operation from him?

You provide local distribution facilities for manufacturers of branded products, and your value to them is recognized. Why, then, should these manufacturers not assist you to sell these goods, if stocked by you, by a series of local advertisements, perhaps carrying your name as local distributor, published in this newspaper?

The more frequently and vigorously you present your point of view to national advertisers, direct and through the representative who calls on you, the more surely will you persuade them to accept it

Alvin Jones and family and Mr. and Mrs. John O'Brien are going to occupy the house.

L. MacPhee, Local Agent of the Ellison Milling and Elevator Co., recently traded his Pontiac coupe, for a 1930 Chevrolet Sedan, which is a very nice looking car.

THE SPRING HABIT

Spring is an untiring miracle, no less so today than when men were more inevitably concerned with the seasonal moods of mother earth. Ancient mystery is renewed each year by which rich life and color and eager growth spring again from the winter-locked land. A few days of kindly sun and the resurrection is begun, the life restored, the world renewed with beauty.

Life endures the winter but blossoms with the spring. All things good and full of promise answer the warm welcome of a friendly sun. Because nature is grown again, the world is once more fruitful.

From this seasonal certainty we may pick a lesson. Men likewise grow better and work better in good weather. Hard times and harsh discipline, whether of men or circumstances, may test and toughen endurance and stiffen courage and fiber, but growth and usefulness flourish better in the warmth of good will and kindness. These are the spring tonic of human life which can awaken all its hidden powers and riches. We grow better, work better and are in all ways happier in the habit of mutual encouragement and the widespread warmth of genuine good will.

HEY, FOLKS!

We have received an assortment of

COVER PAPER

of an excellent grade. Very good for booklet work of all kinds. ALL COLORS.
